Manufacturer of Specialty Self-adhesive Tapes

BODY PANEL

ACRYLIC FOAM TAPE (AFT)

Our acrylic foam tape is a high-strength, double-sided adhesive solution, perfect for demanding automotive applications. With excellent bonding capabilities and long-term durability, this tape is ideal for mounting and securing components where strength and flexibility are essential.

Key Features :

- Superior Bonding Strength
- Vibration and Shock Absorption
- Temperature and Weather Resistant
- Flexible and Conformable
- Clean and Durable Finish

Application :

- Trim and Emblem Mounting
- Side Moldings and Spoilers
- Body Panel Attachment
- Weatherproof Sealing
- Mirror and Sensor Mounting

Any customized size is also available on special demand based on quantity..

Manufacturer of Specialty Self-adhesive Tapes

BODY PANEL

ACRYLIC TRANSPERENT FOAM TAPE (VHB TAPE)

Our VHB tape is an ultra-strong, double-sided acrylic foam tape engineered for demanding industrial and automotive bonding applications. It replaces mechanical fasteners and rivets with a clean, durable bond that withstands extreme conditions and delivers long-term performance.

Key Features :

- Exceptional Adhesion to Metals, Plastics & Glass
- High Shear Strength & Load Bearing Capacity
- UV, Moisture & Solvent Resistant
- Shock & Vibration Absorption
- Clean Appearance with No Residue
- Withstands Extreme Temperatures (-40°C to +150°C)

Application :

- Automotive Trim & Panel Bonding
- Signage & Nameplate Mounting
- Glass & Metal Fabrication
- Electronics Assembly
- Solar Panel Framing
- Appliance & Furniture Manufacturing

Any customized size is also available on special demand based on quantity..

DOUBLE SIDED FOAM TAPE

Our Double-Sided Foam Tape is a high-strength adhesive solution, perfect for various industrial and automotive applications. With excellent bonding capabilities and long-term durability, this tape is ideal for mounting and securing components where strong adhesion and flexibility are essential.

Key Features :

- Strong Adhesion
- High Durability
- Shock & Vibration Absorption
- Moisture & Temperature Resistant
- Flexible & Easy to Use

Application :

- Automotive
- Electronics
- Construction & Signage
- Furniture & Interior Design
- Home & Office Use

Any customized size is also available on special demand based on quantity..

PACKAGING

EVA FOAM TAPE

Single-sided foam tape is widely used in the packaging and logistics industries, especially for applications involving PP returnable boxes, due to its excellent cushioning, adhesion, and ability to conform to irregular surfaces. Its foam core provides superior protection against impact, vibration, and moisture, making it ideal for sealing, insulating, and securing parts within returnable packaging systems

Key Features :

- Excellent Cushioning Properties
- Strong Adhesion
- Conforms to Irregular Surfaces
- Water and Moisture Resistance
- NVH Control

Application :

- PP Returnable Boxes
- Automotive Industry
- Electronics
- Construction

Any customized size is also available on special demand based on quantity..

BUNDLING

IXPE FOAM TAPE

IXPE foam tape is widely used in the packaging and logistics industry due to its exceptional durability, flexibility, and strong adhesive properties. Its foam reinforcement provides excellent cushioning and impact resistance, making it ideal for heavy-duty sealing, insulation

Key Features :

- Durability
- Strong Adhesion
- Flexibility
- Cushioning & Impact Resistance
- Water & Moisture Resistance

Application :

- Packaging & Logistics
- Automotive Industry
- Electronics & Electrical
- Construction & Building
- Soundproofing Applications

VEHICLE SEALING

NEOPRENE FOAM TAPE

Our neoprene foam tape is a high-performance adhesive solution designed for demanding automotive applications. With excellent sealing, cushioning, and vibration dampening properties, this tape ensures long-lasting durability and protection for your automotive components.

Key Features :

- Strong Adhesion
- Excellent Sealing Properties
- Vibration and Noise Dampening
- Weather and Temperature Resistant
- Flexible and Conformable

Application :

- Sealing and Gasketing
- Vibration Dampening in Panels and Assemblies
- Mounting and Bonding of Trim Components
- Engine and Underbody Sealing

Any customized size is also available on special demand based on quantity..

FASTENERS

NITRILE FOAM TAPE

Nitrile foam, also known as NBR (Nitrile Butadiene Rubber) foam, is widely used in the automotive industry due to its durability, resistance to oils and chemicals, and excellent insulating properties.

Key Features :

- Oil resistance
- Excellent compressibility
- Shock absorption.
- Enhances fastening reliability
- NVH Properties

Application :

Fastener Support – Used as a gasket or cushion in fastener applications to prevent vibration and enhance durability.

- Hoses and Tubing
- Protective Wrapping for Wiring
- Headlight Assembly

AIR FLOW

PU FOAM

PU Foam Tape is a Made from durable polyurethane foam, this tape offers excellent resistance to moisture, UV rays, and temperature variations, making it ideal for automotive applications.

Key Features :

- Excellent insulation
- Flexibility
- Lightweight
- Moisture Resistance
- Sound-dampening properties
- NVH Properties

Application :

Purpose: To control and regulate air flow in systems where optimal circulation is necessary.

- Air Vents
- HVAC Systems
- Airflow Channels

INSULATION

ALUMINIUM FOIL TAPE

Our Aluminium Foil Tape is specifically designed for the construction and HVAC industries to ensure strong, reliable bonding and superior sealing in various applications. With excellent adhesion to metal surfaces, insulation materials, and ducts, it guarantees durability and performance

Key Features :

- Strong Adhesion
- Temperature Resistance
- Moisture & Vapor Barrier
- Easy Application
- Thermal Conductivity

Application :

- HVAC Systems
- Thermal Insulation
- Electrical Systems
- Construction
- Automotive

Any customized size is also available on special demand based on quantity..

ROOFING

BUTYL RUBBER UNDERLAYMENT

Butyl Rubber Underlayment is widely used in the construction industry for roofing and waterproofing applications due to its convenience, durability, and ability to provide a reliable, watertight seal.

Key Features :

- Waterproof
- Strong Adhesion
- Flexible
- UV and Weather Resistant
- Chemical Resistant

Application :

- Roofing
- Wall Cladding
- Concrete Joints
- Foundations

Any customized size is also available on special demand based on quantity..

ROOF SEALING

HIGH POLYMER BUTYL RUBBER TAPE

High Polymer Butyl Rubber Tape is widely used in the construction industry due to its exceptional durability, strong adhesion, and resistance to moisture, UV rays, and chemicals. Its excellent sealing and waterproofing properties make it ideal for applications such as joint sealing, roofing, and flashing,

Key Features :

- Strong Adhesion
- Waterproof
- UV and Weather Resistant
- Temperature Resistant
- Non-Hardening

Application :

- Roofing
- Waterproofing
- Pipe Sealing
- Facade Sealing
- Concrete and Precast Jointing

SEALING

MASTIC TAPE

Butyl Rubber Mastic Tape is a high-performance sealing and insulating solution tailored for demanding automotive applications. Its ability to create a strong, durable bond and resist environmental factors makes it indispensable for a variety of uses in the automotive sector.

Key Features :

- Excellent Sealing Properties
- High Adhesion and Flexibility
- Self-Fusing and Non-Hardening
- Electrical Insulation

Application :

- Sealing Wire Harness Connections
- Weatherproofing Automotive Components
- Sealing Gaps in Vehicle Bodywork
- Automotive Glass Installation

Any customized size is also available on special demand based on quantity..

BUNDLING

COTTON CLOTH TAPE

Cotton cloth tape is widely used in the packaging and logistics industry due to its exceptional durability, flexibility, and strong adhesive properties. Its fabric reinforcement provides high tensile strength, making it ideal for heavy-duty bundling, sealing, and surface protection applications.

Key Features :

- Tear-Resistant
- Flexible & Easy to Handle
- Water & Moisture Resistant
- Heat Resistant
- Residue-Free Removal

Application :

- Packaging & Bundling
- Surface Protection
- Bookbinding & Repairs
- Carpet & Flooring Installation
- Electrical & Cable Management

BUNDLING

CROSS FILAMENT TAPE

Cross filament tape, also known as reinforced filament tape, is widely used in the packaging and logistics industry due to its exceptional strength, resistance to tearing, and superior bonding properties. Its reinforced fibers provide high tensile strength, making it ideal for heavy-duty bundling, strapping, and sealing applications.

Key Features :

- High Tensile Strength
- Superior Adhesion
- Tear Resistance
- Customizable
- Lightweight and Flexible

Application :

- Heavy-Duty Packaging
- Bundling and Palletizing
- Reinforcing and Repairing
- Strapping and Sealing

Any customized size is also available on special demand based on quantity..

KINEMATIC COMPONENTS

DOUBLE SIDED TISSUE TAPE

This double-sided tissue tape is designed to deliver reliable performance in mounting parts within kinematic assemblies. With strong adhesion and precision application, it's perfect for assembling moving parts where stability and accuracy are essential.

Key Features :

- High Tack Adhesion
- Thin and Flexible
- Easy Application
- Temperature Resistant
- Clean Removal

Application :

- Kinematic Component Assembly
- Electronic and Small Part Mounting
- Automotive Interior Assembly
- Plastic and Metal Part Bonding

Any customized size is also available on special demand based on quantity..

REPAIR WORK

DRYWALL TAPE

Our Drywall Tape is specifically designed for the construction industry to ensure strong, reliable bonding and smooth finishes in drywall installations. With excellent adhesion to drywall surfaces and joint compounds

Key Features :

- Strong Adhesion
- Flexibility
- Tear-Resistant
- Easy Application
- Prevents Cracking

Application :

- Joint Taping
- Corner Protection
- Patching
- Preventing Cracking
- Waterproofing

Any customized size is also available on special demand based on quantity..

DUCT TAPE

Duct tape, also known as cloth tape, is widely used in construction and maintenance industries due to its strong adhesive properties, flexibility, and resistance to water and temperature variations. Its reinforced fabric backing provides excellent durability, making it ideal for sealing, repairing, and bundling applications in both professional and DIY settings.

Key Features :

- Strong Adhesion
- Water and Moisture Resistance
- Tear-Resistant
- Multi-Surface Use
- Strong Adhesion

Application :

- Sealing and Insulating
- Repairs and Maintenance
- Packaging
- Cable Management

Any customized size is also available on special demand based on quantity..

GASKETING

EPDM SINGLE SIDE ADHESIVE DIE CUT

Our EPDM adhesive die cuts are designed specifically for the automotive industry, offering reliable sealing, cushioning, and insulation in various applications. With high resistance to environmental factors, these die cuts ensure optimal performance and durability in automotive components.

Key Features :

- High Adhesion Strength
- Excellent Weather and UV Resistance
- Noise and Vibration Dampening
- Chemical and Heat Resistance

Application :

- Sealing for Doors and Windows
- Gaskets for Engine Components
- Vibration Dampening in Interior Assemblies
- Thermal and Acoustic Insulation

Any customized size is also available on special demand based on quantity..

NVH CONTROL

FELT TAPE

Our high-quality felt tape is specially designed for the automotive industry, providing noise reduction, cushioning, and protection for a variety of components. With durable adhesion and a soft, flexible surface, it's ideal for preventing squeaks and rattles, especially in areas with frequent contact.

Key Features :

- Noise Reduction
- High-Strength Adhesion
- Durable and Wear-Resistant
- Temperature Resistant
- Flexible and Conformable

Application :

- Interior Trim Noise Reduction
- Door and Window Sealing
- Wire and Cable Protection
- Component Cushioning
- Sealing and Protection in Engine Compartments

Any customized size is also available on special demand based on quantity..

REPAIR WORK

GLASS FIBER CLOTH TAPE

Our Glass Fiber Cloth Tape is specifically designed for the construction and HVAC industries to ensure strong, reliable bonding and superior sealing in various applications. With excellent adhesion to high-temperature surfaces, insulation materials, and ducts, it guarantees durability and exceptional performance.

Key Features :

- High-Temperature Resistance
- Exceptional Durability
- Superior Adhesion
- Flame Retardant
- Moisture & Chemical Resistance

Application :

- HVAC Systems
- High-Temperature Applications
- Electrical Insulation
- Construction
- Industrial Applications

SEALING

HDPE WOVEN FABRIC TAPE

HDPE Fabric Tape is a versatile and durable solution specifically designed for applications in FIBC bags. This tape plays a critical role in enhancing the structural integrity, functionality, and overall performance of FIBC bags used in various industries such as agriculture, chemicals, construction, and food processing.

Key Features :

- High Strength
- Moisture Resistance
- Lightweight
- Flexibility
- Abrasion Resistance

Application :

- Sealing and Reinforcement
- Protective Lining
- Structural Support

POWDER COATING

HIGH TEMPERATURE GREEN POLYESTER TAPE

High-temperature green polyester tape is commonly used in the powder coating process of automotive parts due to its heat resistance, durability, and precision in masking

Key Features :

- High-Temperature Resistance
- Chemical Resistance
- Clean Removal
- Precision Masking
- Durability and Tear Resistance

Application :

High-temperature green polyester tape is essential in powder coating automotive parts, ensuring quality, durability, and aesthetic appeal

- Masking Threaded Holes
- Protecting Sensitive Surfaces
- Aesthetic Precision

KRAFT PAPER TAPE

Kraft paper tape is widely used in the packaging industry due to its eco-friendliness, strong adhesion, and excellent sealing properties. Its biodegradable nature and recyclability make it an ideal choice for sustainable packaging solutions.

Key Features :

- Strong Adhesion
- Durable and Tear-Resistant
- Writable Surface
- Customizable
- Compatible with Dispensers

Application :

- Packaging and Sealing
- E-Commerce and Retail
- Branding and Customization
- Pharmaceutical Industry
- Textile Industry

MASKING

MASKING TAPE

Masking Tape is made from high-quality paper or crepe material, providing excellent adhesion to a variety of surfaces. It is highly resistant to peeling, tearing, and UV rays, making it perfect for automotive, painting, and industrial applications.

Key Features :

- Strong Adhesion
- Clean Removal
- Tearable by Hand
- Flexible and Conformable
- UV and Heat Resistant
- Smooth Finish

Application :

- Painting and Decorating:
- Automotive
- Electronics
- Construction

SURFACE PROTECTION

PRE TAPED MASKING FILM

Pre-taped masking film is widely used in the automotive industry for painting applications due to its convenience, efficiency, and ability to provide precise coverage.

Key Features :

- Quick and Easy Application
- Effective Paint Protection
- Variety of Sizes and Lengths
- Cost and Time Efficiency
- Static Cling for Secure Fit

Application :

Auto detailing facilities use pre-taped masking film in all types of painting projects, from minor touch-ups to complete repaints, due to its ability to protect various surfaces while maintaining the quality of paint lines and finishes

- Panel Painting
- Detail Protection
- Window and Interior Coverage

VEHICLE PAINTING

PRE TAPED MASKING PAPER

Premasking Paper Tape is widely used in the automotive industry for painting applications due to its ease of use, efficiency, and ability to provide clean, precise edges. It offers strong adhesion to various surfaces while preventing paint bleed, ensuring a professional finish.

Key Features :

- Quick and Easy Application
- Effective Paint Protection
- Variety of Sizes and Lengths
- Cost and Time Efficiency
- Static Cling for Secure Fit

Application :

- Automotive Painting
- Signage
- Industrial Coating
- Furniture and Woodworking

SURFACE PROTECTION

SURFACE PROTECTION TAPE (SPT)

Our surface protection tape is expertly crafted to protect automotive surfaces during manufacturing, assembly, and transportation. With strong adhesion and easy removal, it prevents damage to finishes, ensuring components remain in pristine condition.

Key Features :

- Durable Surface Protection
- Easy Application and Clean Removal
- Resistant to Moisture and Chemicals
- Temperature Stable

Application :

- Automotive Paint Protection
- Interior Surface Protection
- Exterior Trim Protection
- Glass and Headlight Protection

Any customized size is also available on special demand based on quantity..

WATERPROOFING

POLYESTER TAPE

Polyester Tape is commonly used in the powder coating process of automotive parts due to its excellent heat resistance, durability, and ability to provide precise masking. Its strong adhesive ensures secure placement, while its clean removal leaves surfaces free from residue

Key Features :

- High-Temperature Resistance
- Chemical Resistance
- Clean Removal
- Precision Masking
- Durability and Tear Resistance

Application :

- Construction Joints
- Window and Door Frames
- Gutter Repair
- Waterproofing Membranes

Any customized size is also available on special demand based on quantity..

INSULATION

TAT TAPE

The TAT Transfer Adhesive Tape is specifically formulated for applications requiring secure, dependable adhesion in electronic manufacturing. It provides seamless bonding with PU foam and other substrates, ensuring insulation and organization of wire bundles in tight or intricate spaces. This tape is critical for maintaining safety and efficiency in complex electrical assemblies.

Key Features :

- Strong Adhesion
- Excellent Insulation
- Thin and Flexible
- Clean and Precise Application

Application :

- Adhesion of PU foam for insulation
- Secure bundling of wires in intricate spaces
- Improving safety and functionality in electrical components.

Any customized size is also available on special demand based on quantity..

ABOUT US

We “**ATOZ Gumming Work India Pvt Ltd**” is a private limited firm specializing in the manufacture of all types of Speciality Self-adhesive tapes & Foams. We are recognized as a leading manufacturer in the industry.

Our products are in high demand due to their premium quality, seamless finish, diverse patterns, and affordable prices. We ensure that all our products are crafted using premium-grade raw materials and state-of-the-art machinery.

We have state of the Art infrastructure & Manufacturing facility, which enables us to maintain high standards in both production and quality.

VISION

To be world's leading manufacturer and supplier of all types of Speciality self-adhesive tapes & Foams . To provide quality products and services through effective Solutions for Customers Intricate problems.

MISSION

To be customer's First choice by providing an extensive range of Speciality Self adhesive tapes, Foams & Allied Services. To grow at a steady and responsible pace to a position of strength and prominence in Self adhesive tape industry.
